## ABOUT ME

---

I'm a front-end developer student based in Sweden with a bachelor's degree in physics. I have professional experience in meteorology, development and leadership. I'm a person with a lot of energy, who finds great joy in solving problems and I'm driven by seeing progress and development.

I live in Norrköping with my husband, our son and dog. During my spare time I enjoy spending time with my family and when I find the time for it I like to enjoy an online game with family and friends.

# Fabiola Poblete

Frontend developer student

## EXPERIENCE

---

2023 -

**Junior Developer | SMHI, Norrköping**

Working partime as a developer while studying. Development of meteorological tools using React.

2022 - 2023

**Project Manager | SMHI, Norrköping**

Project manager of a very successful project. The main goal was to optimize the meteorological production unit.

2020-2022

**Meteorologist | SMHI, Norrköping**

Main task was to provide the public with nationwide weather forecasts and weather warnings. Communication through text, national radio and social media.

2015-2020

**Marine meteorologist | SMHI, Norrköping**

Assemble near real-time information and forecasts for decision-making towards captains and operators within the shipping industry. In addition I worked in close cooperation with the development division, providing them with software requirement specification, prioritizing and software testing.

## EDUCATION

---

Ongoing

**Frontend Developer | Folkuniversitetet**

2019

**Project Management | Uppsala University**

2018

**Java Programming | Luleå University of Technology**

2011-2015

**Bachelor's degree in physics | Lund University**

## SOFT SKILLS

---

Willingness to learn

Goal-oriented

Self-directed

Leadership

Critical thinking

Problem solving

Decision making

Cooperation

## CERTIFICATES

---

Scientific Computing with Phyton

JavaSript Algorithms and DataStructures

Responsive Webdesign

## LANGUAGES

---

Swedish      ● ● ● ● ●

English      ● ● ● ●

Spanish      ● ● ● ●

French      ● ●

## REFERENCES

---

References are provided on request

## TECHNICAL SKILLS

---

Programming languages

HTML, CSS, JavaScript, Phyton

Frameworks and libraries

React

Linux

Basic knowledge

Version control

GitHub, GitLab

UX-design

Figma

Agile methodology

Professional experience, I recently implemented a more agile way of working in the meteorological forecast center at SMHI.

Technologically oriented

Easy to learn and use new technologies, technology-based resources and programs.

## PROJECTS

---

*See more projects on my portfolio or Github*

### CloudCast

February - March 2023

- Created a simple weather app using HTML, CSS and Javascript
- Used a weather API from Openweather
- Used Javascript library from Leaflet to implement a map

<https://unrivaled-moxie-8e819b.netlify.app>

### Hangman

January 2023

- Group examination project in the Javascript course
- Made with HTML, CSS and Javascript
- Arrays, loops and eventlisteners

### Star Wars Catalog

February 2023

- School project for practising API and fetch
- Made with HTML, CSS and Javascript
